WITH A FOCUS ON MORE SUSTAINABLE STRETCH FILMS, WE HAVE DEVELOPED OUR MANUSTAR® RANGE TO COMBAT THE OVERUSE OF MACHINE-APPLIED STRETCH FILM, SO YOU TOO COULD REDUCE YOUR SPEND AND PLASTIC CONSUMPTION

Manustar® has been developed to provide superior performance and reduced consumption; truly offering you MORE FOR LESS:

- ★ Low gauge 100% recyclable LLDPE film for extremely demanding applications with wrapping machines.
- ★ Particularly suitable for wrapping sharp edged heavier loads, thanks to exceptional puncture resistance.
- ★ Manufactured for use on automatic & semi-automatic turntable, rotating arm, rotating ring & horizontal wrapping machines with 300% (12µm) minimum guaranteed pre-stretch.
- ★ Provides exceptional cost saving opportunities, from delivery to waste management.
- ★ Offers significant reduced environmental impact, as a result of thinner and less film use to deliver equal or higher load containment performance.
